General Wood Deuies It.

Washington, D. C. March 13.—General Wood to-day defied that the Was Department has ordered or was contemplating ordering flore troops to the South. This statement was made because of persistent rumers that another division of 20,000 mer was about to be assembled on the border.

It is the intention of the War Department, it developed to-day, to change from time to time the general officers now in command of the troops mobilizing in the South in order that the whole staff of officers of the army may be given an opportunity to assume field command of large bodies of soldiers. The officers of the organized militia will be attached to the officers of the regular army of equal grade for purposes of instruction.

General Wood also denied that there was intention, as had been reported, of sending two cavalry regiments from San Antonio to the border line, He said the actual patrol of the fronties would not be increased at the present time.

Mexico City. Mex. March 13—Mexdeo's proposed war measure, the bill to suspend certain conceded personal privileges under specified circumstances, was approved to-day by the permanent commission of Congress in the form as irafted by the Department of the Inerior.

Apparently taking it for granted that he bill would become a law, the War repartment has already made its plans or co-operation. The guards along tighways and railways will be doubled, coording to General Manuel Cosio, linister of War. The bill was presented at to-day's session of the permaent commission by the subcommittee, emposed of members of the Chamber of Demuties and the Senate, to which
